

# States Landing Clean Up Green Up

## May 18, 2012

# How this came about

- States Landing has had “issues” – mucky bottom, aquatic weed, boat launch, parking, under-used facility etc.
- It is a beautiful spot, with a great history and lots of potential for the future
- What to do about the facility has been on the radar screen for awhile now

# Neighborhood Mtg. Jan. 19, 2013

- Great turnout
- Many good memories and ideas for the future expressed
- Asked who would participate in a clean up day at the facility – almost a unanimous reply in the affirmative

“We could have an awareness/clean up day”

# What the day was about

- Clean up the beach and park area
- Landscape architect to interact with participants
- Presentations to address traffic, roads, boat launch, parking etc.
- Ideas for future use of the beach and park area presented by landscape architect
- Lunch served to volunteers by Town Officials

# Coordinated efforts

- Public Works
- Recreation
- Town Administrator
- Police
- BOS
- Volunteers

**Carter and Donna welcome the workers**  
***Over 25 people showed up to help!***

**Tasks to be done are explained**

**Willing workers  
Ready to roll...**

# Staff and volunteers – all worked hard

# Everyone chipped in

# Doug solicits ideas from volunteers

# Chief Wetherbee discusses issues with volunteers

# Examples provided of parking issues

“We don’t want to ever lose this beach...”

“We’d like to see the area cleaned up  
for a park”

“There is a lot a lot we can do as  
volunteers”

“There are dead trees and branches that need to be removed”

“We need to bring the beach back...it will bring back a sense of community”

“If we build it and use it – people will come”

“We purchased our house because of the beach”

“As a new resident I’m shocked to hear how good it used to be.”

“We don’t have to go all the way back to how it used to be”.

Any improvement will be good.”

# Before and After – Beach Area

# Before and After Park Area

# Before and After Park Area

# One of the many, many leaf piles

# Lunch prepared for the volunteers by Selectmen Tolman and Wakefield

# Lunch is served

# Chief presents on enforcement, traffic and parking

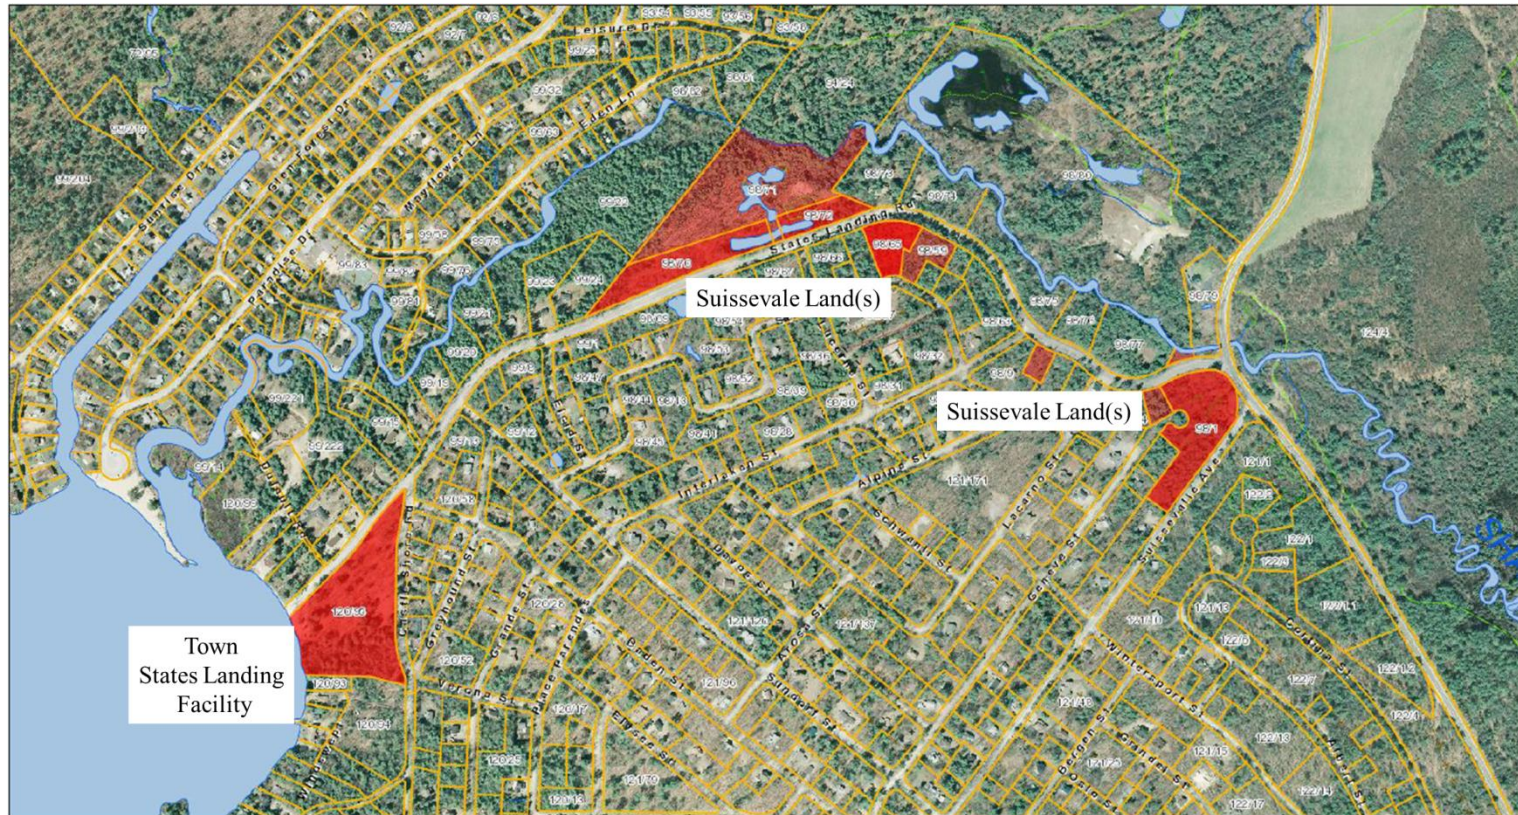

# TA Terenzini presents on road projects

# Suissevale Properties

States Landing Properties Owned by Suissevale and Town  
Moultonborough, NH

1 Inch = 450 Feet  
May 23, 2013

# Clark's Landing

# Landscape Architect Doug Greiner presents ideas and drawings

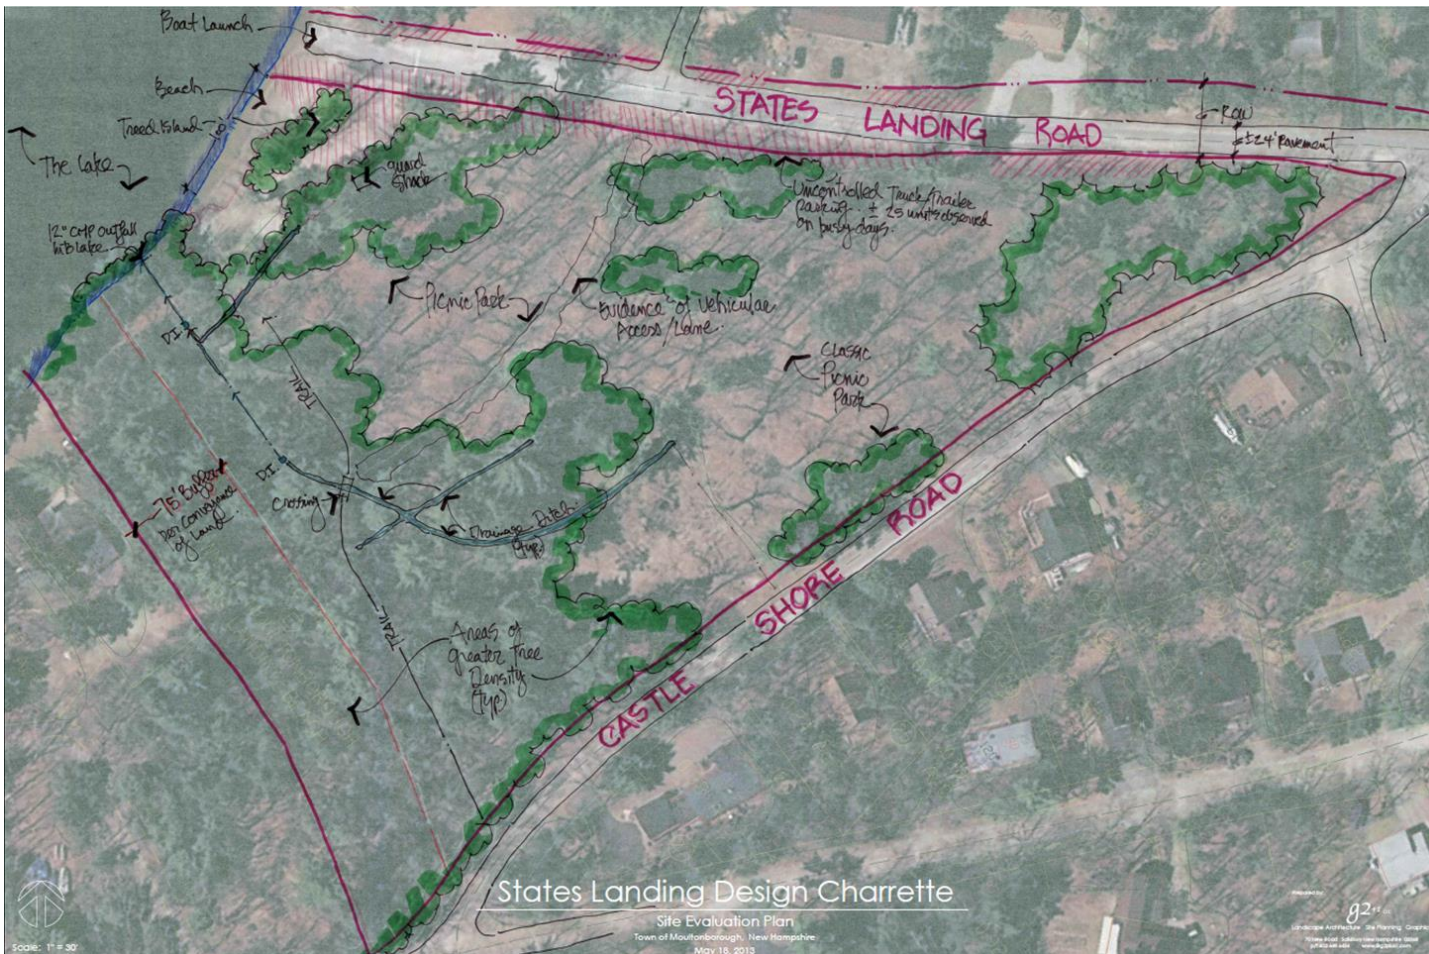

# States Landing Property

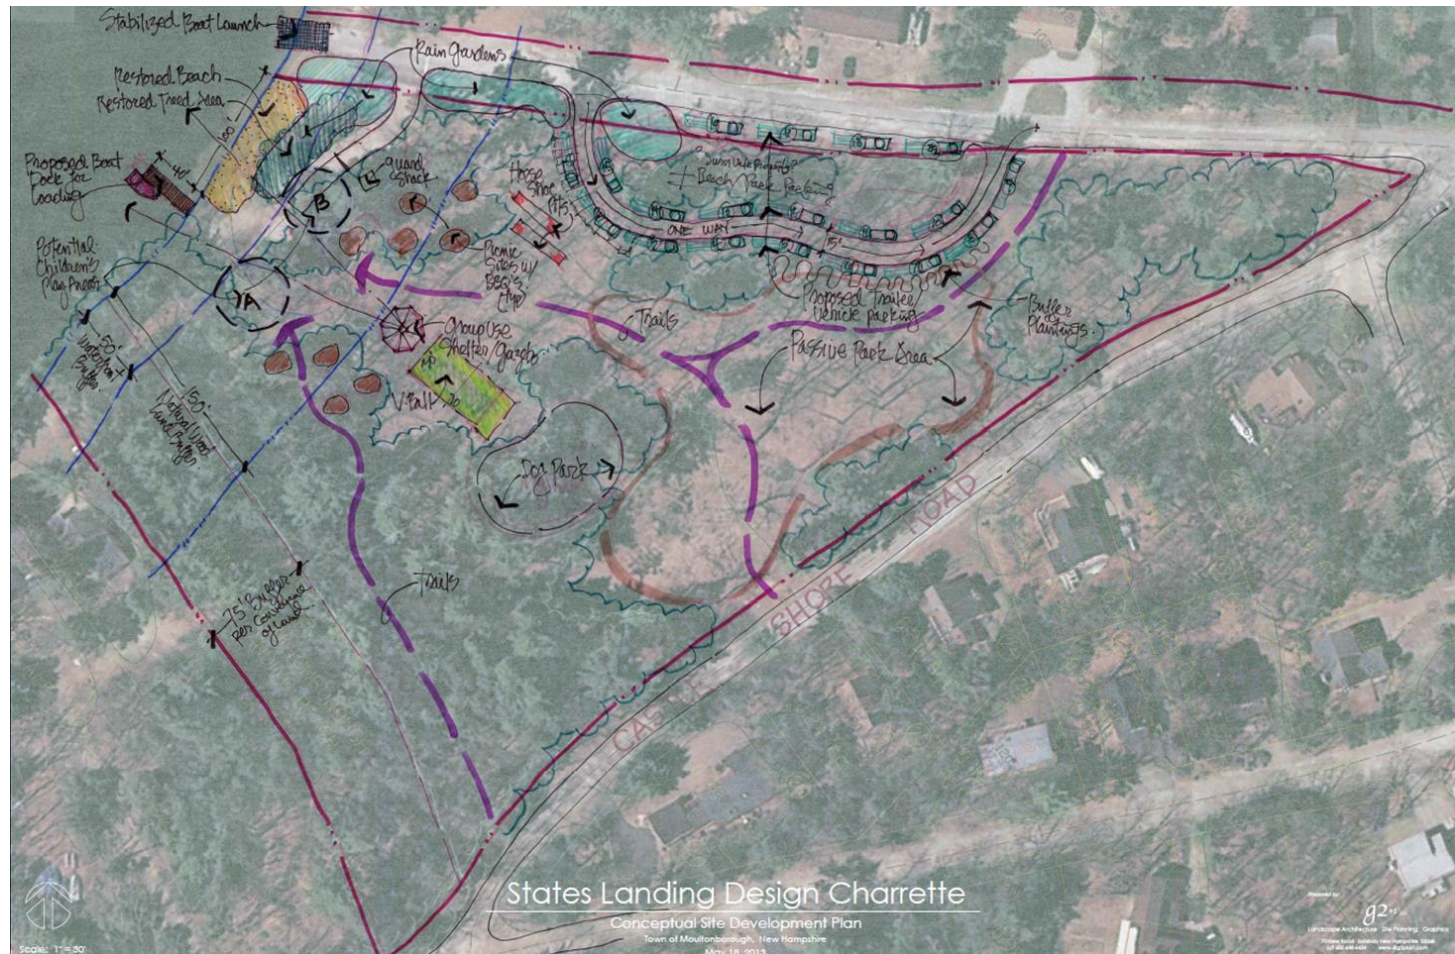

# Park Ideas

# Beach, Launch and Park Ideas

# Volunteers listen, ask questions and provide feedback

“The area is about memories. Anything is possible if we work together”

# So the Questions Become...

- Which of the roadway options to proceed on?
  - States Landing to east of Castle Shores Rd or
  - Go back to Old Route 109
- Study Moultonborough Bay before proceeding with dredging
- Backfilling DPW budget with up to \$5k for tree removal
- Approach Suissevale?
- Decals and private piggybacking on dredging?

Thanks to all volunteers, staff and town officials who made the day a successful one!
